eXTReme[™] FoilSeal™

For high performance under extreme conditions

Application:

Long-term storage, light sensitive assays and robotics

Temperature Range:

-80°C to +120°C

| CATALOG # | DESCRIPTION | QUANTITY |
|--------------|------------------|------------|
| XTR-FOIL-100 | eXTReme FoilSeal | 100 Sheets |

Features and Benefits

- Certified DNase- & RNase- free
- Excellent chemical resistance (e.g. DMSO)
- Recommended for -80°C long-term storage
- Aluminum foil seal offering superior performance in ultra-low temperatures
- 1.9mil thick aluminum foil removes easily without tearing and allows for visual verification of the seal's security around each well
- Specially formulated adhesive provides an excellent seal to minimize evaporation and well-to-well contamination
- Smaller dimensions and chamfered corners result in no plate overhang for robotics applications
- Not recommended for PCR
